"This book is a unique approach in that it follows a client through the counselling process (intake, assessment, individual, group, family counselling, and then discharge and relapse prevention planning). Along the way, readers are introduced to theories, techniques and hands-on examples of what is required in the counselling process"--

All of the requisite forms addiction treatment professionals need—a crucial time-saver in today's healthcare system Treating addiction in today's healthcare environment means that mental health professionals must manage an imposing amount of paperwork. Government and private grant funding, insurance and benefits programs, regulatory compliance, and the need for data on treatment effectiveness (evidence-based treatment) all require proper documentation. If these forms are missing, the results can range from bureaucratic headaches to problems serious enough to close a practice. Now fully updated and revised, *The Addiction Counselor's Documentation Sourcebook: The Complete Paperwork Resource for Treating Clients with Addictions, Second Edition* provides the most useful and current forms for accurate and comprehensive documentation and record keeping. These ready-to-use forms will save you and your practice hours that would otherwise be spent creating and collating them, freeing you to devote more energy to the important matters of treatment. A companion CD-ROM includes all documents in Word? format so you can customize them according to the unique needs of your practice. Covering every aspect of mental health practice for addiction treatment, this fully revised Second Edition also includes: Critical forms updated to help providers achieve HIPAA, JCAHO, and CARF compliance Unique handouts, exercises, and facilitator guides for use in individual and group therapy A comprehensive CD-ROM featuring all forms in Word format, as well as PowerPoint slideshows for every psychoeducational presentation in the book *The Addiction Counselor's Documentation Sourcebook, Second Edition* is an essential time-saving resource that allows any professional practicing or working in the field of addiction treatment the freedom to give more of their time and energy to the people they serve.

SUBSTANCE ABUSE COUNSELING, Fifth Edition, is at the cutting edge of the addiction field, combining a focus on the most current empirical studies with a firm belief that clients must be treated with a collaborative and respectful approach. These core values lay the basis for individualized treatment

planning, attention to the client's social environment, a multicultural perspective, and a recognition that client advocacy is part of the counselor's role. Authors Lewis, Dana, and Blevins believe strongly that clients differ not only in the specific behaviors and consequences associated with their drug use but also in culture, gender, social environments, physical concerns, mental health, and a host of other variables. Using an integrated approach, the authors describe innovative methods for meeting clients' needs through personalized assessment, treatment planning, and behavior change strategies, showing students how to select the most effective treatment modalities for each client. Updated with new references, this edition features a stronger emphasis on motivational interviewing, expanded material on ethical considerations, coverage of cultural and diversity considerations in every chapter, and digital downloads of key forms that appear throughout the text. Addiction Counseling Review: Preparing for Comprehensive, Certification, and Licensing Examina-

tions offers a clear, readable overview of the knowledge and skills those training as alcohol or other drug counselors need to pass their final degree program, certification, and licensing examinations. It is organized into six sections: Addiction Basics, Personality Development and Drugs, Common Client Problems, Counseling Theories and Skills, Treatment Resources, and Career Issues. Each chapter includes challenging study questions that enable readers to assess their own level of understanding, including true/false, multiple choice, and provocative discussion questions. Each chapter also provides a glossary of key terms and, in addition to references, annotated suggestions for further reading and Web site exploration. This book will be a resource to which students and trainees will go on referring to long after it has helped them through their examinations. In addition, faculty and established professionals will find it a useful one-stop summary of current thinking about best practice.

Grief Work in Addictions Counseling is a book for practitioners and students in the field of substance abuse counseling who encounter grief and loss issues with clients recovering from addiction. Enlightening the reader about loss, its relation to addiction, and the need to grieve these losses, this book provides specific strategies and techniques that readers can apply to both individual clients and counseling groups. Chapters address multicultural themes to help clinicians design treatments that will meet the needs of diverse genders, sexual orientations, cultures, ages, and spiritual orientations. This book is useful both for professionals and as a supplemental textbook for students preparing to become addictions counselors.

What is the role of self-help groups in addiction counseling? How are other disorders and behavioral problems aggravated and influenced by addictions? How can one help another through the treatment process? The answers to these questions preclude a basic understanding of the vocabulary surrounding addictions and addiction counseling -- a vocabulary provided by this informative, introductory resource. This book is an excellent, overall summary of addictions counseling. Its primary strength is its practical, hands-on approach which allows readers to learn first-hand about how to help people with addictions. It is an invaluable resource for anyone who wants to bridge the gap between the academic side and the practical side to this type of counseling. Providing the current and pertinent information on addictions counseling, this book includes separate chapters on self-help groups, assessment instruments, brief therapy, and dual disorders. Addiction counselors, psychologists, health professionals, behavioral therapists, friends and family members of those struggling with addiction problems, and anyone else who wants to learn more about addictions counseling.

American Journal of Nursing, 2001 Book of the Year Award in Psychiatric & Mental Health Nursing Building upon generic concepts and skills of caring and helping, this book provides a foundation for addiction practice by health and social services professionals. Chapters emphasize the knowledge considered essential in every area, and each chapter identifies the skills required and suggests topics for further study.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Perfect as the major resource in first courses in Substance Abuse Counseling and Drugs and Behavior or for general clinicians as an on-the-job resource. This guide is designed to increase the knowledge base of the reader/student about alcohol, tobacco, and other drugs (ATOD) and to help them more clearly understand the process of working with clients who are misusing or abusing these drugs--now updated to include the changing

substance abuse problems in our nation and around the world. Recognized for its clarity, accessibility, and practical approach, this widely used text thoroughly examines substance abuse in the population, addressing ways to measure the problem and ways to treat individuals and families who seek assistance. The authors educate prospective and practicing clinicians and counselors by guiding them, step-by-step, through the process of working with substance-abuse clients. While the chapters generally build on each other as they take readers through the theory and practice of substance abuse counseling, each chapter can be used as a stand-alone source of valuable information. Illustrative case studies with critical thinking questions.

A wholly revised and updated edition of the book widely read by professional counselors as well as those who do the work of counselors, such as ministers, teachers, and nurses.

Giordano, an established scholar in behavioral addictions, has provided a landmark clinical reference book. This text provides the quintessential guide to understanding process addictions with detailed attention to assessment and treatment that is unparalleled in the literature. Theory and Practice of Addiction Counseling by Pamela S. Lassiter and John R. Culbreth brings together contemporary theories of addiction and helps readers connect those theories to practice using a common multicultural case study. Theories covered include motivational interviewing, moral theory, developmental theory, cognitive behavioral theories, attachment theory, and sociological theory. Each chapter focuses on a single theory, describing its basic tenets, philosophical underpinnings, key concepts, and strengths and weaknesses. Each chapter also shows how practitioners using the theory would respond to a common case study, giving readers the opportunity to compare how the different theoretical approaches are applied to client situations. A final chapter discusses approaches to relapse prevention.

A blend of theory and counseling techniques, this comprehensive text provides readers with an overview of several major counseling theories and their application to substance use disorders and addiction counseling, along with related techniques and interventions. Chapters incorporate cutting edge evidenced-based research on neuroscience, psychological and sociocultural theories explaining the biopsychosocial influences of substance use disorders, and examine how substance use disorder risk factors can be utilized when assessing someone who may have a substance use disorder. The text additionally helps apply theory to practice, offering intervention techniques and using accessible case studies. Throughout the text, highlighted learning opportunities and key terms further help students to practice and apply the theories, interventions and techniques that the book discusses. Mental health professionals, undergraduate and graduate students alike will benefit from this deft mix of prominent theory, innovative research and accessible case studies.

It is a wise, flexible, and openminded guide that pulls together the contemporary knowledge about substance abuse into one source. --Dr. William Van Ornum

"This is the remarkable story of America's personal and institutional responses to alcoholism and other addictions. It is the story of mutual aid societies: the Washingtonians, the Blue Ribbon Reform Clubs, the Ollapod Club, the United Order of Ex-Boozers, the Jacoby Club, Alcoholics Anonymous and Women for Sobriety. It is a story of addiction treatment institutions from the inebriate asylums and Keeley Institutes to Hazelden and Parkside. It is the story of evolving treatment interventions that range from water cures and mandatory sterilization to aversion therapies and methadone maintenance. William White has provided a sweeping and engaging history of one of America's most enduring problems and the profession that was birthed to respond to it" -- BACK COVER.

This book provides information regarding the enormity of substance abuse problems in the population, how to assess the problems, and how to treat individuals and families who seek assistance. It educates beginning clinicians and counselors about substance abuse by guiding them through the process of working with substance-abuse clients. Written in an understandable, and easy-to-grasp manner, it covers the basics of substance use and abuse—Terminology, physiology, psychokinetics, and psychodynamics. Case histories are used in selected chapters to help readers integrate the various approaches by offering a sample of the types of issues presented when working with this population. An emphasis on special populations includes minority populations, women, elderly, special needs groups, and children/youth. For substance abuse counselors seeking information on the stages of counseling—from assessment and diagnosis through relapse prevention.

Strongly focused on the therapist-client relationship, *INTERPERSONAL PROCESS IN THERAPY: AN INTEGRATIVE MODEL* integrates cognitive-behavioral, family systems, and psychodynamic theories. Newly revised and edited, this highly engaging and readable text features an increased emphasis on the integrative approach to counseling, in which the counselor brings together the interpersonal/relational elements from various theoretical approaches, and provides clear guidelines for using the therapeutic relationship to effect change. The author helps alleviate beginning therapists' concerns about making mistakes, teaches therapists how to work with their own countertransference issues, and empowers new therapists to be themselves in their counseling relationships. Featuring new case examples and dialogues, updated references and research, clinical vignettes, and sample therapist-client dialogues, this contemporary text helps bring the reader in the room with the therapist, and illustrates the interpersonal process in a clinically authentic and compelling manner. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Becoming an Addictions Counselor, Fourth Edition provides evidence-based findings, cutting-edge treatment techniques, and a focus on critical thinking to show future counselors how to respond to clients' needs rather than impose "cookie-cutter" routines.

"The authors practice and many years of work in the substance abuse field is evident by his inclusion of many discreet, important, yet generally overlooked areas, whether in his helpful hints or in his identification and discussion of special populations." Scarlett A. Benjamin, Keuka College "It is gratifying to see a text emerge that is comprehensive in its emphasis on treatment, rather than focusing primarily on pharmacology and brain chemistry." Peggy D. Campbell, Florence Darlington Technical College "Counseling the Alcohol and Drug Dependent Client: A Practical Approach, 1/e" provides a practical approach for assessing and treating alcohol and drug-abusing/dependent patients. Providing state-of-the-art concepts and methods, Dr. Craig provides practical examples and suggestions for working with patients and their families to promote and maintain recovery. This text presents a variety of views, perspectives, philosophies, and intervention methodologies dealing with drug and alcohol abuse in an understandable language that can be quickly and clearly adapted to a practice setting. Special Features: Chapters 1-3 introduce and explore the consequences, costs and ideas for understanding substance abuse and addictive behavior, and include a detailed examination of the scope, risk factors, and etiology of substance abuse. A full chapter is dedicated to assessment methods and techniques. A thorough discussion of principles of treatment combines latest research

on treatment consequences with clinical consensus on what really works. A full chapter is devoted to the subject of treating special populations. Chapter 9 includes an evaluation of public policy approaches to substance abuse problems, allowing reader to consider controversial ideas to address the problem of substance abuse in society. True to life vignettes throughout the text make the struggles and successes of persons addicted to substances come alive. After tackling basic concepts of substance abuse and dependence counseling, it looks at different counseling theories and how each supports the client with substance abuse issues. Offering more how-to's than most books, the author provides concrete descriptions of counseling theory in action, so readers know how to intervene during a real counseling session. A consistent case study is used throughout the entire book to illustrate different treatment approaches and techniques. The Enhanced Pearson eText features embedded video. overview of addictive behaviors and habits from early use through risky use, severe-risk use, and addiction. Authors Laura Veach and Regina Moro draw from their experience in both teaching and counseling to provide real-world knowledge and evidence-based practices for working with clients who fall within the spectrum of addiction ranging from experimentation to physical addiction and recovery. With a unique focus on neuroscience, integration of CACREP standards, and extensive coverage of addictions across the lifespan, the book serves as a practical resource for future addiction counselors. The Spectrum of Addiction is part of SAGE's Counseling and Professional Identity Series. To learn more about each text in the series, please visit sagepub.com/cpseries.
