the partnership sold all of its assets for cash equal to the fair market value of the assets and then liquidated.<sup>8</sup> The "liquidation value" rule is pro-taxpayer because it disregards discounts that might apply to the fair market value of the partnership interest due to lack of marketability for such an interest.

Offered as an alternative to the authors' widely used separate texts on corporate and partnership tax, the Sixth Edition of this comprehensive casebook continues its tradition of providing an integrated approach to teaching the "fundamentals" of a highly complex subject with clear and engaging explanatory text, skillfully drafted problems, selective discussion of tax policy issues, and a rich mix of original source materials to accompany the Code and regulations.

Problems and Solutions in Partnership Tax. It begins with the most basic, such as the rules governing the contribution of property to a partnership, selection of the taxable year, and computation of partnership taxable income. It also covers the more complex rules, such as those governing special allocations of recourse deductions,...
