Annual Conference 2021 will be going ahead online. The conference theme is, 'The value of research and evidence in a crisis'. Abstract submission deadline is Monday the 9th of November 2020 at 5.00 pm ...

Of all the shapes, a sphere has the smallest surface area for a volume. Or put another way it can contain the greatest volume for a fixed surface area. Example: if you blow up a balloon it naturally forms a sphere because it is trying to hold as much air as possible with as small a surface as possible. Press the Play button to see.

Sphere definition is - the apparent surface of the heavens of which half forms the dome of the visible sky. How to use sphere in a sentence.

Sphere. A sphere is defined as the set of all points in three-dimensional Euclidean space that are located at a distance (the "radius") from a given point (the "center"). Twice the radius is called the diameter, and pairs of points on the sphere on opposite sides of a diameter are called antipodes.
